LINN

## ABOUT LINN

We love to welcome visitors to our factory here in Glasgow, Scotland.

Visit Linn and enjoy a guided tour, Everything bearing the Linn name is designed and manufactured under one roof so you can see every stage as it happens.

Email [helpline@linn.co.uk](mailto:helpline@linn.co.uk) and we'll be in touch to arrange the details.

## ABOUT LINN

Linn design and make the best music systems in the world. Established in 1973 and based in Scotland, Linn manufacture everything in-house and supply a complete range of exceptional hi-fi components for the home, including their industry-leading network music players and the iconic Sondek LP12 turntable. Linn were awarded a Royal Warrant in 2002 and the Queen's Award for Enterprise in Innovation in 2012. Linn also record music and sell high resolution Studio Master downloads.

ABOUT LINN

# THE SOUND OF SUNDAYS

Matthew, Dalston

## WHY WE LOVE MUSIC

Music matters. We live our lives to music. It's a very powerful, personal force.

Listening to music changes the way we feel and act. It captures the moments and intensifies our emotions.

When Ivor made the Sondek LP12 he didn't set out to build a business; he simply wanted to listen to great music at home.

It's this passion for music that drives us to design and make the best music systems in the world.

## ABOUT LINN

### HAND-BUILT AND TESTED BY ONE PERSON, JUST FOR YOU

Everything bearing the Linn name is designed in-house. We manage all the production processes, from casting metal cases to creating advanced electronic circuits. Our speakers are built in the workshop, our systems are assembled by hand and everything is individually tested before it's packed for despatch.

We don't run a standard production line. Each product is built, tested and packaged by one person. They take all the time they need to make sure that product meets the Linn standard. Only then do they sign their name on it and prepare it for despatch.

Every Linn system is signed off in this way. It is a mark of our commitment to excellence, our attention to detail, our for music and our pride in what we do.

### BUILT TO LAST

The longer you have a Linn, the more you'll appreciate it. You can start small and build as you go — everything we make is modular and our belief in open systems means it will work with everything else you use. So you can expand or upgrade at your own pace. And there's no hurry; Linn products are built to last.

Choose from one of our pre-configured systems, or build the hi-fi of your dreams from the ground up. We have a complete range of individual hi-fi components so you can customise and mix and match to your heart's content — find the perfect combination for your home.

## LINN SYSTEMS

Linn systems transform the way you listen to music, movies, television, games and radio at home. All systems feature our Linn DS family of network music players and offer the same range of powerful features, so you only have to decide how good a sound you would like and where.

Choose from four levels of performance, from Kiko through to Klimax.

WHAT A LINN SYSTEM CAN DO

WHAT A LINN SYSTEM CAN DO

Get better sound from your favourite music, movies, games, TV and radio shows with a Linn network music system.

Connect everything you listen to at home together and stream high-res audio to any room. Release the true potential of your digital music and get wireless control of your entire collection.

What would you like to do?

- Play music wirelessly
- Stream online music & movies
- Connect your living room
- Escape the computer
- Enjoy music in any room
- Listen to high resolution music

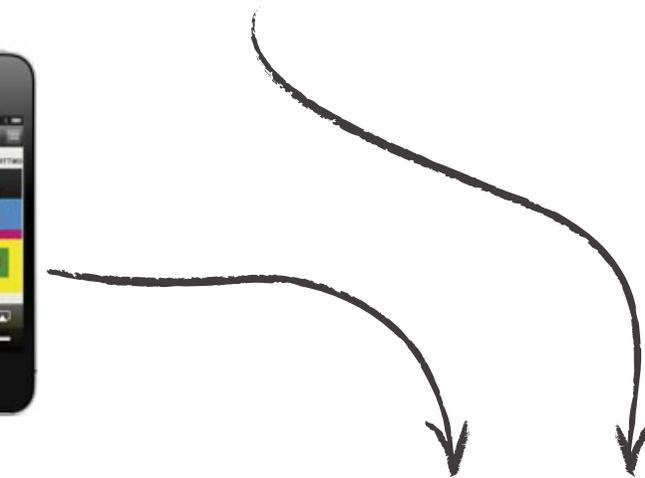

## WHAT A LINN SYSTEM CAN DO

### PLAY MUSIC WIRELESSLY

Download our songcast app and play any music on your computer through your Linn.

Send music wirelessly from any PC or Mac using Linn's Songcast app and play it through your Linn. Or just hit the AirPlay button on your iPhone, iPad or iTunes account.

Improve the sound quality of iTunes, Spotify, LOVEFILM, YouTube, BBC iPlayer, TuneIn radio... in fact any online source.

### DID WE MENTION AIRPLAY?

You can play your favourite songs through your Linn system by hitting the AirPlay button on your iPad, iPhones or iTunes.

### SONGCAST

Download our Songcast app and share music from any computer in your home. It's easy. Anything you can play on a computer can be heard through your Linn, and anything you listen to on your Linn can be shared with a system in another room.

### STREAM ONLINE MUSIC & MOVIES

Get better sound from your favourite online music and movie apps through your Linn system.

Just download Songcast, press Play and enjoy Linn quality. Plays nice with AirPlay too.

If you normally play it on a computer, you can now hear it on your Linn. That's the flexibility of digital streaming. All your favourite online apps can benefit from Linn sound. Download Songcast and turn on your Linn — it's that easy.

It's as easy as this:

- DOWNLOAD SONGCAST
- PRESS PLAY ON YOUR PC OR MAC
- LISTEN THROUGH YOUR LINN

## CONNECT YOUR LIVING ROOM

Use HDMI to connect your digital TV, Blu-Ray player or games consoles. Connect a turntable or other hi-fi components using the analogue, digital or optical inputs and share.

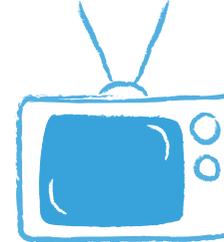

Listen to games, movies, Blu-Ray and TV in high quality for the first time.

Use HDMI inputs to connect your TV, Blu-Ray or DVD player, Playstation, Xbox...

Anything stored on your computer or accessed online can be played or shared across the network

Use digital and optical inputs for anything else you want to make sound better, e.g. analogue tuner, disc player

Connect your turntable to a built-in phono stage or use an external phono pre-amplifier

## ESCAPE THE COMPUTER

Place your music system where you like and control your music in comfort. Browse your entire collection — flick through album covers and create a playlist for the night. Hop between radio stations and listen to the latest podcast. All from a controller that's already in your hand.

Desktops and laptops are brilliant at lots of things, but creating great sound isn't one of them.

With a network music system from Linn you'll never trust your computer speakers again. Let the experts take over — store on a computer, play on a Linn.

Mix and match your Linn controller and let everyone in your family pick their own favourite. Control and freedom — it's the way digital music should always have been.

Phones, iPads, laptops and iPods... even the humble remote control.

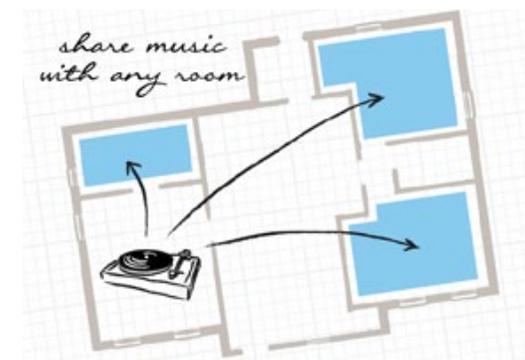

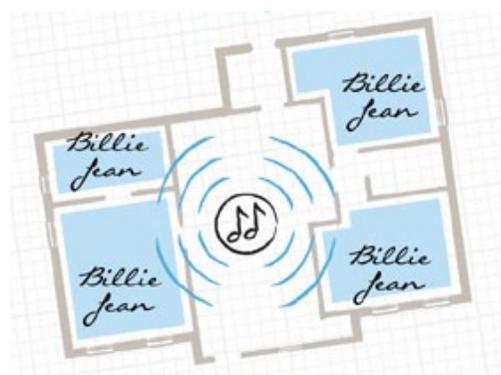

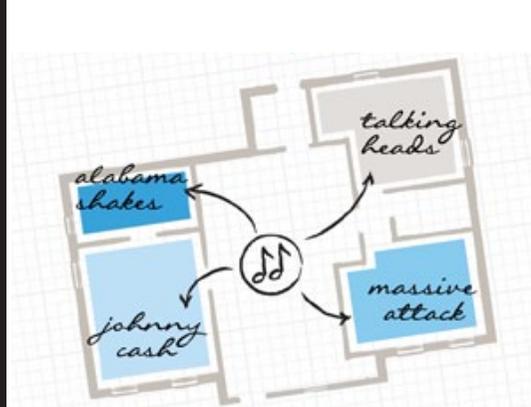

## ENJOY MUSIC IN ANY ROOM

Put a Linn system wherever you want great sound. Anything you listen to on a Linn can be shared with a Linn system in another room. Let every room pick its own soundtrack from your shared library or play the same song everywhere.

Let every room pick its own soundtrack from your shared music library. You can change music in any room from any controller.

Anything you connect can be shared with another room.

Listen to your favourite records in the bath or a live concert stream in your bed.

Throw the world's best parties. Sometimes you just want to play the same thing everywhere. Now you can.

## LISTEN TO HIGH RESOLUTION MUSIC

When you listen to 24-bit Studio Master music on a Linn system you're listening to the highest possible quality available. Escape the limitations of compressed music and bring music to life in its full glory.

Play the best on the best.

A Linn system lets you escape the limitations of compressed music and brings music to life in its full glory. Download a Studio Master album from [LinnRecords.com](http://LinnRecords.com) and find out what a Linn system is capable of.

Apple Lossless, WAV, FLAC or anything in between, our systems can handle it all. Linn's network music players are built from the ground up to get the best of anything you choose to play, but when you try 24-bit high resolution content, the sound is, well, spectacular.

Small box, big sound.

Great sound from a compact system. Small but perfectly formed, Kiko is fully Aktiv and has the power for any music, any room.

Compact and complete, Kiko is all you need for great sound. It works straight out the box and is easy for everyone to use.

Available in six different colours from classic Black to Champagne Gold, all you need to worry about is choosing a colour.

## KIKO SYSTEM

Release the potential of computer audio and online streaming services with Kiko. Get more from wireless music and connect all your audio sources together. Exceptional sound doesn't have to be expensive and this compact system is surprisingly flexible and powerful. Choose Kiko and bring a smile to any room.

LINN SYSTEMS

## MAJIK SYSTEM

Put a Majik system at the heart of your home and everything sounds better: music, movies, games, TV, radio.

With the power and precision to handle anything you play, you can turn up the volume and fill any room with great sound. A Majik system makes other hi-fi sound ordinary.

If you're looking for a music system that offers an extra bit of sparkle, Majik is the perfect solution.

Fill your home with great music, using a system which gives you enough power and precision to produce great sound at any volume.

LINN SYSTEMS

## AKURATE SYSTEM

Re-ignite your passion for music and enjoy exceptional audio performance from high resolution music, movies and online content. An Akurate music system preserves and enhances every last musical detail, getting more from your favourite artists. Superbly engineered and built to Linn's exacting standards, this is serious hi-fi.

Stylish build and elegant lines conceal a superbly well-constructed enclosure with exceptional acoustic properties and lasting build quality.

Enjoy audiophile flexibility, with the freedom to improve performance and add to your system from Linn's range of hi-fi separates, including upgrading to an active speaker system for a fuller, more immersive sound.

Accept no compromises — choose a music system that reproduces your favourite artists and albums at the highest possible quality available in your home.

Built to last. Our craftsmen use only the finest materials and their attention to detail is fanatical — this is the last music system you'll ever own.

Simple elegance. One elegant music player machined from a single piece of high grade aluminium and flanked by a pair of gorgeous, hand-crafted speakers with integrated amplification.

## KLIMAX SYSTEM

This is Linn's best sound. Effortlessly and naturally musical, Klimax means sound quality beyond compare, stunning looks and impeccable build standards. As close to the original performance as you can get at home, this isn't just the last music system you'll ever need — it's the last system you'll ever want.

TRY LINN

TRY LINN

The best way to try Linn is to visit a shop and listen to music. Our specialist retailers are happy to help. We can help arrange a time for you to try out different systems at a Linn specialist near you. Then you can pick the system that sounds best.

EVENTS

From live music performances to sneak previews of the very latest systems, a Linn event gives you the chance to listen to great music systems and meet the people who make them.

VISIT LINN

Visit Linn in Scotland and meet the people behind the products. We design and make everything under one roof. Join us on a factory tour and see how it all happens.
