**LOUDSPEAKERS**

# THE BEOLAB DIFFERENCE

## Custom-made drivers

Each individual driver used in BeoLab speakers is measured for unique performance characteristics. This data is then used to individually calibrate each amplifier for that perfectly balanced sound reproduction.

## Digital amplifiers

All BeoLab speakers include dedicated amplifiers. Active loudspeaker technology with crystal clear sound amplification that ensures you get an unforgettable experience.

## Acoustic Lens Technology

Another unique BeoLab technology is the acoustic lens. Its horizontal sound dispersion conveys smooth high-frequency sound evenly throughout the room enabling you to move around more freely while still experiencing perfect sound.

## Distinct materials

To ensure an aesthetically pleasing appearance on all BeoLab speakers, only the very best aluminium is used – 99.9% pure aluminium is used to create surfaces like no one else in the world.

## Temperature monitoring

BeoLab speakers monitor the internal temperature of the drivers and use this data intelligently to tame the amplifier's power outputs, and if need be, protect the drivers against overheating the coils.

## WiSA

BeoLab speakers are available with no latency wireless sound, perfect for in-sync multichannel audio presenting you with freedom to place or move them anywhere in the room.

## Adaptive Bass Linearisation

To deliver ultra-high-intensity bass without risking woofer damage when playing at full volume, Bang & Olufsen's Adaptive Bass Linearisation constantly monitors and adapts the lows.

## TV speakers

To our acoustical engineers, any Bang & Olufsen TV is simply an amazing sounding speaker system with a large display.

**BEOLAB 90**

A perfect mix of world-class design and acoustics. Our most powerful digital loudspeaker to date, it provides you with clarity, range and a sound staging that is second-to-none. It features 360-degree design that will give you mind-blowing sound regardless of its placement.

**Cover:** Black

**BEOLAB 20**

BeoLab 20 offers Immaculate Wireless Sound for crystal clear, wireless bliss, giving you the freedom to decorate your room. Its powerful and refined performance comes from the active speaker design and the uncompromising engineering of its digital sound engine.

**Cover:** Midnight green, rumba red, forged iron grey, driftwood beige, black, white

**BEOLAB 19**

Part of our collection of Immaculate Wireless Sound-enabled loudspeakers BeoLab 19 is a subwoofer for deep bass signals.

**Cabinet:** Grey, white, black

**BEOLAB 18**

Part of our collection of Immaculate Wireless Sound-enabled loudspeakers BeoLab 18 is a sophisticated reincarnation of our renowned column loudspeaker.

**Cabinet:** Aluminium  
**Lamella:** Maple, oak, walnut, black, white

**BEOLAB 17**

Part of our collection of Immaculate Wireless Sound-enabled loudspeakers BeoLab 17 can be positioned anywhere from bookshelves to walls or in corners, to shape incredibly robust wireless sound.

**Cabinet:** Aluminium, black, white  
**Cover:** Midnight green, rumba red, forged iron grey, driftwood beige, black, white

**BEOLAB 5**

2500 watts of exceptional digital amplification create a bigger, clearer, more realistic sound in your living room than you thought possible. BeoLab 5 also analyses the "sound of the room" and adjusts its own performance accordingly.

**Cover:** Black, white

### BEOLAB 3

Small yet mighty, BeoLab 3 delivers the precise, powerful sound equivalent of a conventional speaker roughly 10 times the size thanks to the unconventional design and two ICEpower amplifiers in each unit.

**Cabinet:** Dark grey, black, white

**Mounting:** Wall bracket, table stand, table ring, floor stand

### PALATIAL

Integrated in-wall speakers with full-bodied sounds. Palatial are passive in-wall speakers made for active listening. For room-filling music experiences and invisible home theatre set-ups where sounds are heard, not seen.

**Mounting:** In-wall speakers

**Accessories:** Advanced aluminium grille

**Variations:** 2 x 6.5" woofers and 4 x 6.5" woofers

### CELESTIAL

Discreet in-ceiling speakers for room-filling sound experiences. Celestial are passive in-ceiling speakers combining exceptional sound performance with flexibility and simple installation in an unobtrusive design that matches any interior.

**Mounting:** In-ceiling speakers

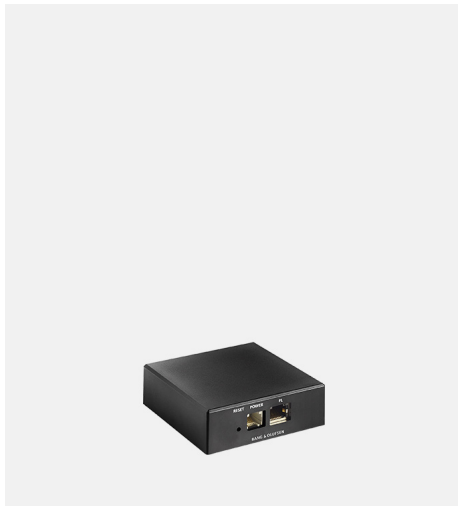

**Accessories:** Advanced aluminium grille

**Variations:** 2-way and 3-way systems ranging from 6.5 Inch to 10 Inch

### **BEOLAB TRANSMITTER 1**

Regardless of your Bang & Olufsen TV or music system, you can now experience seamless connectivity to our brand new speakers featuring Immaculate Wireless Sound. Simply integrate BeoLab Transmitter 1 into your existing setup to unleash exceptional wireless sound through the new BeoLab 17, BeoLab 18 or BeoLab 20 speakers, and add depth and bass with our BeoLab 19 subwoofer – scalable up to a full 7.1 surround sound setup.

### **BEOLAB RECEIVER 1**

Seamlessly integrate any speaker from the Bang & Olufsen portfolio into your Immaculate Wireless Sound solution. Simply attach BeoLab Receiver 1 to a current wired Bang & Olufsen speaker of your choosing, and you're ready to immerse your living space in superb audio – wirelessly. Create your perfect custom home cinema experience or sculpt a peerless musical landscape.

# TELEVISIONS

# THE BEOVISION DIFFERENCE

## **360 degree Chromatic Room**

### **Adaptation**

Ambient light levels and colour temperature constantly change due to the sun's movement, this strongly affects your image quality perception. BeoVision Avant constantly monitor light levels, colour temperature and automatically calibrate the image for the best possible viewing experience.

### **Motorised stand**

Today's interior design is highly influenced by smooth flow and an open floor plan design. Most BeoVisions are designed with integrated motorised stand options, enabling one TV to cover multiple rooms/viewing locations.

### **Peripheral Unit Control**

Simple, easy to use one remote control operation is included in all BeoVisions ensuring a simple and uniform interface. No programming is needed to benefit from the internal control system, just pick your AV source from the list and the TV will take control and let you operate it from one Bang & Olufsen remote control.

### **Auto Room Calibration**

Room layout, speaker location and décor affect sound clarity. BeoVision Avant includes sophisticated DSP processing and microphone for measuring the room and speaker location to ensure you get the optimal sound performance.

### **UHD**

Ultra HD is the ultimate resolution for the best video experience. Your BeoVision Avant includes Ultra HD screen and video processing ensuring a surprisingly life-like image.

## **HDMI distribution**

Freedom to continue any show on any BeoVision in any room at any time. The BeoVision includes full HD HDMI matrix video distribution control.

## **Home Automation Interface**

BeoVisions include Home Automation user interface. Adjust the lights or temperature directly on the screen, check the IP cameras and unlock the front gate, the possibilities are limitless.

## **VisionClear**

All BeoVisions include a slew of proprietary video technologies called VisionClear. Countless hours of research and 60+ years of experience has yielded the VisionClear technology serving you with the best picture performance ever.

## **WISA**

Wires tie you down, with WISA built into the BeoVision you gain freedom. Freedom to rearrange your furniture and speakers any time you want. No need to run new cables to your speakers. BeoVisions communicate wirelessly with your speakers. You can place them around the room as you wish.

## **Surround sound**

Experience the movie's full impact the way it was meant to be heard. Immerse yourself in a perfectly-choreographed symphony of clear sound. BeoVisions include True Image™ digital surround sound processors to ensure the perfect listening experience.

## **Anti-reflection coated screen**

Bright light reflects on TV screens and affects your viewing comfort. The same

technology used on fighter jets windshield to eliminate visual glare from the sun has also been applied to your BeoVision for the optimal visual experience.

## **Multiroom sound distribution**

BeoVisions can share sound and control from all their sources to each other over the network. Proprietary technology ensures the sound is synchronised, so you can enjoy perfect echo-free sound as you move from room to room.

## **Music system**

Your BeoVision is a complete audio and video center. It features embedded digital Internet Radio and music streaming services like Spotify and Deezer.

## **Digital dedicated amplifiers**

Bang & Olufsen sound is half the picture. Any BeoVision includes a dedicated amplifier per driver unit and sophisticated digital signal processes that ensure a mind-blowing listening and viewing experience.

### BEOVISION AVANT – 85

The majestic 85" version of BeoVision Avant features cutting edge direct type LED technology with 2D local back-light dimming. These provide the flexibility necessary to bring the true power of cinema straight to your living room.

**Rear Cabinet:** Aluminium, steel  
**Placement:** Motorised floor stand, motorised wall bracket, fixed wall bracket

### BEOVISION AVANT – 75

BeoVision Avant is a celebration of movement. An unforgettable fusion of Ultra High-Definition (4K) picture and iconic Bang & Olufsen sound that unfolds before your very eyes. The design philosophy of BeoVision Avant celebrates smooth, natural transitions with an incredibly subtle frame.

**Rear Cabinet:** Aluminium, steel  
**Placement:** Motorised floor stand, motorised wall bracket, fixed wall bracket

### BEOVISION AVANT – 55

The Ultra High-Definition screen combines local dimming across more than 8 million pixels, bringing out the tiniest details in the action. Precision tuned to Bang & Olufsen's most exacting standard, BeoVision Avant redefines the audio impact a TV can deliver.

**Rear Cabinet:** Aluminium, steel  
**Placement:** Motorised floor stand, motorised wall bracket, motorised table stand, fixed wall bracket

**BEOVISION 14 – 55**

BeoVision 14 is a 4K Ultra HD LED TV featuring a world of connectivity options, integrated access to all your exciting apps and boasting a bigger and more immersive sound than most stand-alone speaker systems. It is much more than a TV. It is a focal point for all your entertainment.

- Frame:** Aluminium or black
- Cabinet:** Black
- Speaker lamellas:** Oak wood
- Fabric covers:** Black, driftwood beige, white, midnight green, forged iron grey, rumba red
- Placement:** Motorised floor stand, motorised wall bracket, wall bracket with manual turn, easel stand

**BEOVISION 14 – 40**

It looks familiar but everything has changed, from the inside and out. Recrafted and refined for a whole new, lively appearance, rebooted for a more flexible and independent television experience.

- Frame:** Aluminium or black
- Cabinet:** Black
- Speaker lamellas:** Oak wood
- Fabric covers:** Black, driftwood beige, white, midnight green, forged iron grey, rumba red
- Placement:** Motorised floor stand, motorised wall bracket, wall bracket with manual turn, easel stand

**BEOSYSTEM 4**

BeoSystem 4 is the video engine that takes customised cinematic entertainment to a whole new level. It is optimised for a central installation that may include advanced sound setups and home-automation systems. You can connect up to six different sources such as Blu-ray players, Apple TV, PlayStation, etc., and get full control of the entire system.

#### **BEOVISION HORIZON – 48**

BeoVision Horizon is a modern 4K UHD screen that gives you total flexibility in terms of placement options, a stellar and forceful sound experience, amazing picture quality automatically adjusted to content and light conditions

**Frame:** Black matt anodised aluminium

**Cabinet:** Black

**Speaker grill:** Forged iron grey matt anodised aluminium lamellas

**Placement:** Wheel stand, floor stand, easel stand, wall bracket

#### **BEOVISION HORIZON – 40**

Introducing a new form of functional flexibility that entertains you when and where it suits you with integrated access to all your entertainment through the ever evolving Android TV™ platform..

**Frame:** Black matt anodised aluminium

**Cabinet:** Black

**Speaker grill:** Forged iron grey matt anodised aluminium lamellas

**Placement:** Wheel stand, floor stand, easel stand, wall bracket

**MUSIC SYSTEMS,  
REMOTES & LINKS**

# THE BEOLINK DIFFERENCE

## Move

Let the experiences follow you through your home, enjoy music in the living room and let BeoLink move that experience to the library or any other room as you wish.

## Video

Enjoy a stunning Blu-ray movie in the family room and finish it in the comfort of your bedroom. BeoLink empowers you with the ability to watch any HD source and control it in any room with a Bang & Olufsen system.

## Control

Take control of any source from any room. Experience the full flexibility and freedom BeoLink offers.

## Join

Let the ambiance flow through your home, entertain with stunningly clear sound, enjoy perfectly synchronised and echo-free music in all selected rooms.

## App

Operate Bang & Olufsen systems using your smartphone or tablet, browse cover art and pick that perfect track. Set the mood, turn down your lights, close the shades and set the temperature - all of this can be done through a simply designed interface.

## In short

BeoLink is the intelligent system built into our products, working behind the scenes to deliver the ultimate experience of simplicity, comfort and brilliant integration.

### BEOSOUND 1

Thanks to the sturdy aluminium body and built-in power source your BeoSound 1 speaker is perfect for a flexible lifestyle where the beauty of the music goes with you; between rooms in your home or for that special occasion outside.

**Available in:** Silver and brass

### BEOSOUND 2

All you need when and where you need it. It is sound on your terms. BeoSound 2 works like charm; setup, connect and play with ease and speed.

**Available in:** Silver and brass

### BEOSOUND 35

A high-end wireless speaker and all-in-one multiroom music system with an easy-to-use touch interface and integrated access to music, radio, Internet radio TuneIn, and streaming services like Spotify and Deezer.

**Mounting:** High and low wall bracket or table stand

### BEOSOUND MOMENT

BeoSound Moment is an intelligent wireless music system that integrates your music and streaming services into one. With just one touch, you can operate the world's first wood interface. Includes Bluetooth, Multiroom App, Network connectivity & DLNA.

### BEOREMOTE ONE

A technical feat in aluminium with a smooth unibody free from visible screws or sharp edges, BeoRemote One is ergonomic and intuitive to use.

**Available in:** Silver

### BEOSOUND ESSENCE REMOTE

Just touch BeoSound Essence and start your favourite music sources. The control elements are reduced to the bare essentials. You can start your music, stop your music, skip tracks, change source and adjust the volume. That's all you need.

### BEOSOUND ESSENCE BOX

A BeoSound Essence setup consists of a hideaway box and an optional wall or table stand remote. It is a simple, elegant one-touch music system and an integrated component in the wireless Bang & Olufsen BeoLink Multiroom experience. It gives direct access to some popular music services and thousands of global internet radio stations.

### BEOLINK GATEWAY

Bang & Olufsen's automation engine, BeoLink Gateway is the key to controlling everything, from the curtains to the coffee maker - it is the mastermind behind your Bang & Olufsen Home Integration solution. The technology is integral to each Bang & Olufsen product, enabling seamless communication across our entire range of systems.

### BEOLINK NL/ML CONVERTER

This versatile product can serve multiple functions simultaneously, including bridging sound and control between the new digital Network Link and the analog Master Link system. Furthermore, the BeoLink NL/ML Converter adds an extra speaker zone to any Master Link or Network Link system, including individual source select and control, to perfectly synchronise sound throughout a home.

### BEOAMP 16

The BeoAmp 16 amplifier is an ultra-compact and highly efficient audio power amplifier intended for multi-zone custom installations in modern homes, but can also be used in professional applications.

### BEOAMP 2

High power in small size. An efficient amplifier for a single zone installation. With its 2 x 150W the BeoAmp2 amplifier is an ultra-compact and power full audio amplifier intended to be used for a single zone custom installations as well as in professional applications.

### IPAD HOLDER — ON WALL

This aluminium mount keeps your iPad completely secure while easily displaying its functions. The slim design presents your device in a stylish manner and is ideal for operating home automation systems in residential and commercial settings.

### IPAD HOLDER — IN WALL

Discretely display your iPad with this in-wall mount. It features a mounting cradle and magnetic bezel, which provide a semi-permanent point of control for your home automation system.

PLAY

BY

BANG & OLUFSEN

### BEOPLAY A9

BeoPlay A9 is a one-point music system capable of handling all your music needs. Connect using AirPlay, DLNA or Bluetooth 4.0. BeoPlay A9 also features the BeoLink Multiroom technology, wirelessly uniting B&O PLAY and Bang & Olufsen products.

**Cabinet:** White, black  
**Legs:** Oak, maple  
**Covers:** Silver, green, red, dark grey

### BEOPLAY S8

The BeoPlay S8 combines award-winning design with powerful acoustic performance to shape a speaker that instantly enhances any home audio set-up. Connect to any streaming device or audio source via volume regulated audio output using RCA (phono) plugs or 3.5mm jack.

**Available in:** in true black

### BEOPLAY S8 CONNECTION HUB

The B&O PLAY Connection Hub allows you to hook up BeoPlay S8 to almost any TV and audio sources, using optical or analogue cables. It handles up to three connections at a time, and automatically changes to the last audio source to play. No remotes are needed, as the Hub learns the IR commands from your TV remote or any other remote.

### BEOPLAY A6

BeoPlay A6 is a one-point music system that fills the room with spectacular sound. This modern day jukebox allows for spacious sound and features the BeoLink Multiroom technology that unites B&O PLAY and Bang & Olufsen products into one complete wireless system.

**Available in:** Light grey, dark grey, dusty blue, dark rose

### BEOLIT 15

A super-stylish, portable compact speaker with simply awesome sound designed by Cecilie Manz. Built-in battery lets you enjoy music on the move, streamed via AirPlay from your mobile device.

**Available in:** Natural, shaded rosa, polar blue, natural champagne

### BEOPLAY M5

Three evenly distributed tweeters, a full range capable front facing midrange driver and a powerful 5" neodymium powered long stroke woofer that fires all its energy down towards a carefully designed dispenser, provide a uniform dispersion of well-balanced Bang & Olufsen Signature Sound all around. Features the BeoLink Multiroom technology that unites B&O Play and Bang & Olufsen products.

**Available in:** Natural and black with seasonal colours to come

### **BEOPLAY A2 ACTIVE**

Portable, dust and splash resistant, Bluetooth speaker with True360 sound. Beoplay A2 Active is designed to go anywhere and is built to be splash and dust resistant. At only 1.1 kg, it's light on the go but can easily withstand the ruggedness of everyday life.

**Covers:** Stone grey, natural

### **BEOPLAY A1**

Life is an adventure. Some epic. Some everyday. The ultra-portable Bluetooth speaker that will travel with you anywhere and bring more sound and more bass into your life - wherever it's happening that moment.

**Available in:** Black, natural, moss green, deep red

### BEOPLAY H9

With Beoplay H9, the focus is on the music. So you can enjoy all the power and precision of authentic Bang & Olufsen Signature Sound and move freely. Beoplay H9 features a rechargeable and replaceable battery with up to 14 hours of wireless music and advanced Active Noise Cancellation technology.

Available in: Argilla grey, black

### BEOPLAY H8

Dynamic wireless uncompromised sound that features an intuitive touch interface giving you full control when you're listening to music or talking on the phone.

Available in: Argilla bright, grey hazel

### BEOPLAY H7

Premium wireless over-ear headphone, fine-tuned to bring you sound that stays true to the music, with or without the cord. A single charge keeps the H7 playing from the moment you turn it on until you take them off at night.

Available in: Black, natural, cenere grey

### BEOPLAY H6

Premium sound and supreme listening experience define the iconic, dynamic, closed back BeoPlay H6 over-ear headphones, crafted from the highest quality materials.

Available in: Black, natural, graphite blush, bronze hazel

### BEOPLAY H2

The BeoPlay H2 is a flexible, on-ear headphone that offers superior sound, as well as microphone and remote features for hassle-free control. Adaptive fit technology means BeoPlay H2 adapts to fit any head perfectly and within minutes.

Available in: Feldstar green, deep red, shaded rosa, silver cloud, carbon blue

### FORM 2i

Ultra sleek and light headphones with a design that originated 30 years ago and is enshrined at the Museum of Modern Art, New York. Dynamic, semi-open, with a 28mm adjustability on each side of the headphone.

Available in: Blue, black, grey, green, red, white, black cloud, carbon blue

### BEOPPLAY H5

Beoplay H5 give you an immersive listening experience that transforms the everyday. From the daily commute to the evening run, Beoplay H5 wireless earphones deliver outstanding Bang & Olufsen Signature Sound for your active, everyday life.

Available in: Black, moss green, dusty rose

### BEOPPLAY H3

Dynamic in-ear headphones offering immense comfort, powerful sound and a durable sturdy exterior in a range of outfit-flattering colors. BeoPlay H3 comes in a beautifully crafted carrying case.

Available in: Silver, black, golden

### BEOPPLAY H3 ANC

Delicately tuned for those who want to experience all the details of their music, even in noisy environments. These active noise cancellation in-ear headphones feature air vents, resulting in natural sound reproduction. The rechargeable battery provides up to 20 hours of continuous playtime with ANC turned on.

Available in: Gunmetal grey

### EARSET 3i

For active people on the move, EarSet 3i (with microphone) & EarSet A8 fit perfectly round the ears for secure in-ear sound from dynamic full-tone loudspeakers that will amaze you, especially weighing just 8 grams.

Available in: Black, white

### EARPHONES

The Earphones features dynamic full tone loudspeakers mounted on a telescopic bar. They're constructed according to the open loudspeaker principle that lets through some environmental sounds, so you're not entirely cut off from the world.

Available in: Black, white
