LEGENDARY SOUND
premium MATERIALS
DESIGNED IN THE USA

We take your enjoyment *seriously*

Over **70** years ago
something very special occurred in a tiny tin shed in Hope, Arkansas

In 1946 Paul W. Klipsch (PWK) – genius, madman and maverick – designed and hand-built the legendary Klipschorn® loudspeaker with the goal of bringing live music into his living room. He was an American audio pioneer and a true eccentric. PWK gave rise to speaker research and invention that would forever impact generations of music lovers.

Today, in this honored tradition, we move forward, pushing the boundaries of art and science – while driving new technologies – to deliver an ever-incredible listening experience. Remember great sound? We never forgot.

We are the KEEPERS OF THE SOUND®

Listeners appreciate a lack of distortion.
-Paul W. Klipsch
Founder

PREMIUM THROUGH AND THROUGH

Klipsch materials are meticulously selected. We carefully choose wood, textiles, leather and metal, not only for their physical beauty, but their durability and acoustic characteristics. Our goal is to create a product you want to hear, see, and feel. Driver material and shape, tactile weight and feedback, grain pattern and finish, and temperature to the touch - every aspect must be considered.

SOME SAY THE HISTORY OF *hi-fi* STARTS HERE

An engineering breakthrough when it was introduced, the Klipschorn® remains one of the most highly praised loudspeakers in the world and is the only model that has been in continuous production for over 70 years. In its latest rendition, the three-way speaker boasts an all-new neodymium tweeter, premium wire management system and fully-enclosed design for flexible placement. Able to span more than nine full octaves with rich, smooth, ultra-low distortion sound, it's easy to hear why the Klipschorn is truly a legend.

Klipschorn AK6

FULLY HORN-LOADED

The Klipschorn is the only fully horn-loaded loudspeaker available to consumers, making it epitome of efficiency. The result is clean, dynamic sound throughout the entire musical range. Touting an unbelievable 105 dB sensitivity, the Klipschorn is ideal for high-end valve amplifiers and audiophile vinyl pressings.

Classic

BEAUTIFUL PRESENCE

Named in tribute to the Teatro alla Scala in Milan, Italy, the original Klipsch La Scala® was unveiled in 1963 to serve as a public address speaker for the gubernatorial campaign of Winthrop Rockefeller. Providing Klipschorn-like performance from a smaller cabinet, this three-way, fully horn-loaded loudspeaker produces sparkling highs, smooth midrange and amazing low-distortion bass response. The La Scala is a premium performer that lives up to its billing.

BOOK MATCHED REAL WOOD VENEER

Wood veneer leaves are delicately sliced from the timber and precisely arranged to provide a mirror grain image at the splice joint. This gives each speaker pair a unique, aesthetically appealing appearance. Each cabinet is carefully matched so speaker pairs are practically indistinguishable from one another. They are then inspected and labeled with sequential serial numbers, ensuring that every Heritage series speaker leaves the factory as a meticulously crafted set.

Cornwall™

GROUND BREAKING PERFORMANCE

The Cornwall was introduced in 1959 to serve as a larger, full-range alternative to the Heresy®. A three-way design using horn-loaded compression drivers for the midrange and treble, and a direct-radiating 15-inch woofer for the low frequencies, the Cornwall delivers the full-range response of the Klipschorn with sensitivity and output approaching the fully horn-loaded models.

Forte™

FORTIFIED WITH FIDELITY

First introduced in 1985, the Forte quickly established itself as the most popular Klipsch model. The elegant design and outstanding performance makes the Forte a standout among its competitors. Hosting a three-way configuration utilizing a 12″ woofer and horn-loaded midrange and tweeter, the Forte sports all new state of the art drivers for a smooth and powerful delivery. The Forte's impressive bass response is made possible through the implementation of a rear-mounted 15″ passive radiator for greater output and extension.

Heresy

## THE ORIGINAL HI-FI HOT ROD

First introduced in 1957, the Heresy® was arguably the first-
ever center channel loudspeaker, used with the Klipschorn
in three-speaker stereo arrays. Topping many audiophiles'
best rock-n-roll speaker lists because of its incredible
output and clarity, the Klipsch Heresy is a compact, three-
way design that uses horn-loaded compression drivers for
midrange and treble reproduction, and a direct radiating
12-inch woofer for the low frequencies.

BREATHE SOME *style* INTO YOUR LIFE
Every musical detail and nuance is delivered with effortless beauty. Crafted with an artisan heart and forged in fire, **Klipsch Heritage Headphones** offer premium headgear – the acoustics and classic design legacy of Paul W. Klipsch.

Klipsch
HERITAGE
Headphones

INDUSTRIAL HI-FI

Hand-assembled with die-cast steel and machined aluminum, Klipsch Heritage HP-3 premium headphones are built to last. Milled wood, triple-vented ear cups create natural warmth and character. Angled sheepskin ear pads provide perfect acoustic depth and distress naturally with age. A hand-stitched premium leather headband adds quality, strength, and becomes more pliable over time.

DYNAMIC KLIPSCH SOUND

Crafted to achieve the high efficiency/low distortion Klipsch sound, the HP-3 extracts every nuance from studio recordings to reveal presence and detail without sacrificing bass. Featuring a recessed 52mm biodynamic driver, this exquisite headphone expands the soundstage to mimic the imaging characteristics of our premium speakers instead of conventional headphones.

EASY TO DRIVE

Compared to other audiophile-grade headphones, the Heritage HP-3 is vastly different because of its high efficiency – one of Paul W. Klipsch's original founding principles in loudspeaker design. With a flat frequency response and low impedance, the Heritage HP-3 will pair well with both high-end amplifiers (such as the Heritage Headphone Amplifier) or standard smart phones.

THOUGHTFUL DETAILS

With a design this beautiful, these headphones are meant to be displayed and enjoyed, not stored in a bag inside a drawer. HP-3 premium headphones come pre-packaged with a custom solid-steel headphone stand, both short (1.37m) and long (2.5m) detachable braided nylon cables, and a custom-fit 1/4" adapter.

NO RECEIVER NECESSARY

Forget the clutter, hassle, and added expense of a receiver or amplifier. Powered by an integrated high-output 200W amplifier, The Sixes efficiently deliver enough power to fill the largest open floor plans with sculpted acoustic goodness.

TRUE HIGH FIDELITY

The Sixes feature 1" titanium tweeters on Tractrix® horns – the driving force behind the stunningly precise Klipsch acoustics. Each powered monitor features a 6 1/2'' long-throw woofer and is ported to provide enhanced bass. The Sixes also include a subwoofer output so you can easily add a powered sub to the system.

PERHAPS THE MOST VERSATILE SPEAKERS EVER

Whether you are connecting to a turntable, television, computer, or smart phone, The Sixes powered monitors provide the audio solution. The Sixes come equipped with an integrated phono pre-amp, *Bluetooth*® wireless technology, digital optical, analog RCA and USB inputs, allowing you to enjoy superior stereo sound from virtually any source. 192kHz / 24-bit decoding delivers astounding reproduction of high resolution audio tracks.

Klipsch HERITAGE WIRELESS

the One

PROFESSIONALLY TUNED STEREO SOUND

The diminutively sized Klipsch One is a 2.1 stereo system – bi-amplified for audiophile resolution. It features two 2.25'' full range drivers and a 4.5'' woofer that are professionally tuned by Klipsch acousticians to deliver a crystal clear performance with great bass. You'll be surprised at the sound quality that comes from such a small package.

BLUETOOTH® WIRELESS TECHNOLOGY

Enjoy streaming internet services, internet radio, or content stored on your phone or tablet via *Bluetooth®* 4.0 wireless technology.

8-HOUR RECHARGEABLE BATTERY

An 8-hour rechargeable lithium ion battery allows you to move the speaker from room to room throughout your home.

3.5mm ANALOG AUDIO INPUT

Enjoy high quality sound from your CD player, computer (via the headphone output jack), Blu-ray® player, or any audio source. Connects easily via 3.5mm to 3.5mm audio cable or an RCA to 3.5mm audio cable.

 Bluetooth®

the Three

LEGENDARY SOUND QUALITY

The Three is the bigger, badder brother of The One. Designed to stay in one place, it doubles down on acoustic prowess in exchange for portability, then adds a rich assortment of inputs to receive tunes from just about any device.

GREAT AUDIO FROM A TURNTABLE OR WHATEVER'S IN YOUR POCKET

Connect your turntable, computer, CD player, smart phone or tablet and enjoy superior stereo sound from a beautifully crafted system. 192kHz / 24-bit decoding delivers astounding reproduction of high resolution audio tracks.

WIRELESS MULTI-ROOM READY

The Three is part of the Klipsch Stream Wireless Multi-Room System, powered by DTS® Play-Fi. Klipsch Stream distributes your favorite music from a variety of sources throughout your home using your Wi-Fi network. Expand the system to add additional rooms of great sound with other Klipsch Stream Wireless Multi-Room audio products.

WE NEVER, *ever* STOP INNOVATING

For over 70 years, Klipsch has designed and engineered its products in-house with some of the most talented, skilled and passionate people in the industry - starting with our founder, Paul W. Klipsch (PWK), in a tin shed in Hope, Arkansas. Today, our advanced acoustic research and development continues at our state-of-the-art facility in Indianapolis, Indiana. The world-class Klipsch Design & Technology Center is home to some of the most brilliant minds in consumer electronics and some of the most legendary products the industry has ever heard. We continue to innovate, honoring the principals and ideals of PWK, reaching ever-farther towards that perfect sound.
