Moving Coil Transformer

Ortofon Verto

New moving coil step-up transformer by Ortofon

- Dual mono step-up transformer
- Internal jumpers for gain and impedance
- Gold plated RCA connectors with Teflon insulation
- Minimal internal wiring, high quality PCB
- Excellent shielded due to Mu-Metal can and metal cabinet
- Transformers made for Ortofon by Lundahl transformers

TECHNICAL DATA	Verto
Configuration A	
Recommended cartridge impedance	5-50 Ohm
Gain 1kHz	24 dB
Freq response	10 Hz - 100 kHz \pm 1 dB
Configuration B	
Recommended cartridge impedance	< 10 Ohm
Gain 1kHz	30 dB
Freq response	10 Hz - 80 kHz \pm 1 dB
Trafo output loading	47 kOhm / 200 pF
Dimensions	75 X 125 X 170 mm
<i>Recommended load; 47 Kohm, 200 pF</i>
