

SUB 600P

Product data sheet

MADE IN
FRANCE

Designed for both Hi-Fi and Home Cinema use, the Sub 600P completes your audio installation by providing a powerful, controlled bass. Its Class-D 600-watt amplifier powers a 12"-diameter Polyflex speaker driver. Its closed design allows any interference noise to be avoided, reproducing the original sound signal as faithfully as possible.

Key points

- Closed subwoofer for faithful reproduction of bass frequencies
- 600-watt class-D amplifier
- Polyflex cone: perfect bass impact
