

the friendliest of room-friendly music systems

sonoro

Sonoro makes the friendliest of room-friendly music systems

Music systems come and go, each claiming to be the coolest in the cosmos, festooned with the latest whizzy features that are rarely easy to understand or relevant to the space in which they operate. Sonoro's approach is radically different and, we think, unique. Sonoro aims to win your affection and satisfaction long-term by creating stylish music systems that are in-tune with your lifestyle in specific environments. Rather than offer a catchall checklist of features, each Sonoro system is designed for the way you live and listen in a particular room. Our approach means that we can offer the ideal kitchen music system, which is portable, durable, colourful and mess-resistant; the perfect living room system: compact but with big stereo sound, and a bespoke bedroom system custom-designed to maximise the bedside listening experience. By adapting the best technologies for easy operation in each living space, Sonoro makes the friendliest of room-friendly music systems.

the perfect kitchen music system

GO London

GoLondon

Portable FM/DAB/DAB+ Radio

GoLondon is perfect for the kitchen, being extremely portable (cables aren't compulsory) and moisture protected. Its distinctive, hand-sized shell is clad in a soft, durable and washable sleeve, available in a range of eight eye-catching colours to match or contrast with bright kitchen environments. The sleeves are interchangeable, so whenever you fancy a change of colour, simply slide off and replace. And to avoid contact with spills, controls and display are set back from its base, which has a slender footprint to squeeze in to tight spaces. By design, GoLondon has been made to serve up great sound in the kitchen.

- GoLondon is made for your kitchen, but its hand-sized portability means you can take it anywhere.
- Interchangeable dishwasher-proof sleeves in dazzling green, purple, white, orange, red, brown, black or blue protect GoLondon from moisture and food: yes you can pick it up with wet hands!
- Controls are set back from the base to protect against spills.
- Optional re-chargeable battery pack supplies up to 12 hours of mains-free listening.
- Designed and engineered in Germany, sonoro GoLondon has a distinctively shaped shell with a slender footprint that's easy to place in tight spaces.

sonoro

Portable FM/DAB/DAB+ Radio

sonoro

the perfect bedside music system

sonoroRADIO

sonoroRADIO

Bluetooth streaming, FM/DAB/DAB+ Radio/Clock/Alarm

The sonoroRADIO is perfect for the bedroom, including features that will prove most useful as you fall asleep and wake up. You'll enjoy the high quality sound and performance of the best compact music systems, but by design, sonoroRADIO has been made to serve the way you listen at rest.

- sonoroRADIO is made to fit your bedside table.
- sonoroRADIO's display is dimmable to your preferred level, so that no bright light disturbs your sleep. Its LUX-Sensor maintains the display at your favourite day/night settings.
- The clock is big enough so you can easily read the time.
- sonoroRADIO's 360° ambient sound will create a comforting sound image.
- Pre-programmed sonoro Soothing Sounds (waves, birdsong) offer a relaxing way to fall asleep and provide a gentle awakening through our alarm fade-in function.
- While you are sleeping, sonoroRADIO's USB-connection will charge your phone.
- sonoroRADIO connects wirelessly with enabled smartphones, laptops or tablets through Bluetooth streaming.
- sonoroRADIO is supplied with FM and digital radio (DAB / DAB+) to provide you the best sound performance and a greater variety of stations.
- Designed and engineered in Germany, sonoroRADIO has a compact, contoured, real-wood cabinet in a range of luxury high gloss lacquered finishes: black, white, silver, red, green.
