Thank you for choosing JBL

For more than 55 years, JBL has been involved in every aspect of music and film recording and reproduction, from live performances to the recordings you play in your home, car or office. We're confident that the JBL products you have chosen will provide every note of enjoyment that you expected - and that when you think about purchasing additional audio equipment for your home, car or office, you will once again choose JBL.

JBL Consumer Products

For use...

...with all JBL
SCS115,
SCS125,
SCS135,
SCS136,
SCS138,
SCS140,
SCS145,
SCS146,
SCS150,
SCS160,
SCS180
and ESC
systems

...with all JBL
SCS200,
SCS260,
SCS300 and
DSC
systems

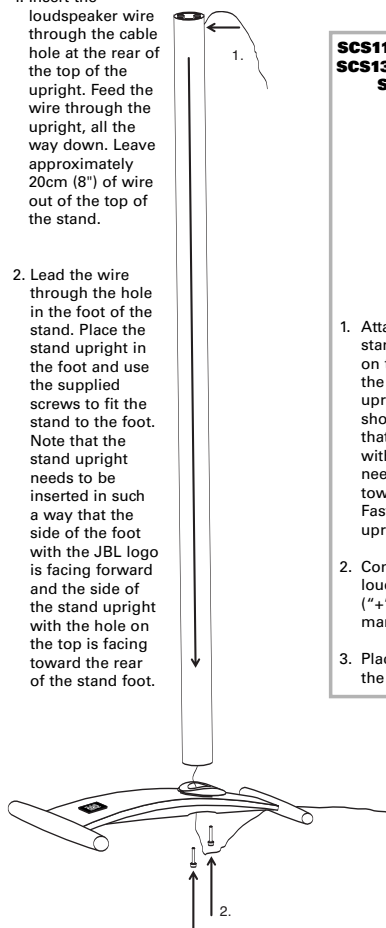

Included

1. Assembly

1. Insert the loudspeaker wire through the cable hole at the rear of the top of the upright. Feed the wire through the upright, all the way down. Leave approximately 20cm (8") of wire out of the top of the stand.

2. Lead the wire through the hole in the foot of the stand. Place the stand adaptor in the foot and use the supplied screws to fit the stand to the foot. Note that the stand upright needs to be inserted in such a way that the side of the foot with the JBL logo is facing forward and the side of the stand upright with the hole on the top is facing toward the rear of the stand foot.

2. Attach speaker

Depending on which speakers you would like to attach, follow the steps below.

SCS115, SCS125, SCS135, SCS136, SCS138, SCS140, SCS145, SCS146, SCS150, SCS160, SCS180 and ESC variants

SCS200, SCS260, SCS300 and DSC
